

Specially designed to ensure that you maintain your house's original classic look.

*“I found DoubleSnap to be easy to work with and it provides a great finished product. As far as I'm concerned I'll never do another remodel or new construction with any other door or window trim.”*

ROBERT LAPIERRE, SIDING CONTRACTOR

## About Specialty Casings Designs, Inc.

We're the creators of DoubleSnap™ Trim. For the past 42 years, we've been working hand-in-hand with builders and architects who are serving individual homeowners with their new construction and remodeling needs.

We designed DoubleSnap™ Trim in response to the demand we heard from the building community to provide their customers with a better product, priced to be affordable to home owners, easy to install, and designed to withstand the demands of tough New England weather – as well as the everyday abuse from sun, salt and sea spray.

We believe in DoubleSnap™ Trim and have put up our money to back up our claim by offering our customers a lifetime guarantee on our product. We invite you to put us to the test, and we know that you too will become a loyal believer in the value of DoubleSnap™ Trim.

- Energy efficient

*“I am always looking for a simple solution to our many renovation/restoration projects. This product not only has classic profiles and clean lines but it is easy to install.”*

M. JOYCE, ARCHITECT

## How DoubleSnap™ Trim Works

- Unique, patented design allows trim to expand and contract in the harsh coastal climate
- Three-piece interlocking construction ensures a tight fit and rigid structure which means you never have to deal with drafts
